EDUCATION

The University of Hong Kong (HKU) **9/2023 ~ Present**
Doctor of Philosophy in Epidemiology and Biostatistics | School of Public Health, Li Ka Shing Faculty of Medicine
WHO Collaborating Centre for Infectious Disease Epidemiology and Control
Research Areas: Infectious Disease Modeling, Health Economics | Supervisor: Prof. B.J. Cowling & Dr. Z. Du

The Hang Seng University of Hong Kong (HSUHK) **9/2019 ~ 8/2023**
Bachelor of Science (Honours) in Data Science and Business Intelligence | Graduation Grade: First Class Honours
Department of Mathematics, Statistics and Insurance

HONORS & AWARDS

Postgraduate Scholarship (PGS) -- HKU **Renewed Annually**
Valedictory (Highest academic distinction conferred to the graduating class) -- *HSUHK* **2023**
Self-financing Post-secondary Scholarship Scheme - Outstanding Performance Scholarship -- *HKSAR* **(2022-23)**
Dean's List -- *HSUHK* **(2019-20) & (2021-22)**
Best Progress Award -- *HSUHK* **(2021-22)**
Bronze Award of the Personal Finance Ambassador -- *The Investor and Financial Education Council (IFEC)* **1/2022**
Entrance Scholarship for Non-local Student -- *HSUHK* **(2019-20) & (2020-21)**

INTERNSHIP EXPERIENCE

Research Assistant -- *Shenzhen Institute of Research and Innovation, HKU* **07/2023 ~ 08/2023**
- Assisted in research on early warning and mass detection strategies for emerging major infectious diseases
- Collaborated with peers on critical parts of the analysis

Student Research Assistant -- *School of Public Health, HKU* **8/2022**
- Instantiated households in different countries with sizes drawn from census data
- Facilitated a project on climate drivers of influenza in the collection of global environmental data

Intern of Executive Group -- *Allied World Assurance Company* **6/2022 ~ 7/2022**
- Extracted the required data from the database (EDW) and ensure the data accuracy of the data
- Designed and compiled real-time updated dashboards (Power BI) and built analytics reports for all the Lines of Business across the Asia Pacific region

Research Assistant -- *Department of Economics and Finance, HSUHK* **10/2021 ~ 6/2022**
- Customized the methodology for research objective of "Sentiment analysis of the 'Critical Audit Matters' section"
- Developed a program that automatically extracts the text of *5000* "htm" formatted files and matches the text of the target paragraph of CAM with the Re gEx (Python)
- Conducted basic natural language processing with "NLTK", such as calculating word frequency and classifying text

ACTIVITIES & SERVICES

Vice Coordinator -- *Wu Zhi Qiao Charity Foundation* **11/2020 ~ Present**
- Collaborated with the Foundation to organize local volunteer services and conduct experience sharing on campus
- Performed full logistical work for the front-line construction bridge field survey and participated in meetings

The Personal Finance Ambassador Programme 2021/22 -- *IFEC* **9/2021 ~ 1/2022**
- Communicated with staffs, set up booths to promote the event, and reached *350* effective participants on campus
- Built an automatic calculation sheet to simulate the investment game, saving *70%* of the computing time

Service-Learning Program 2020/21 -- *Haven of Hope Hospital* **10/2020 ~ 11/2021**
- Operated data cleaning, algorithm selection (KNN, logistic regression), model training, and data visualization
- Achieved progress toward the objective of predicting whether elderly people are likely to have a disease (up to *90%* correct prediction rate)

SKILLS

Coding: Python, R, SQL | **Software:** Power BI, SPSS, Microsoft Office | **Language:** Mandarin, Cantonese, English
